TROOPS RUSH TO IRELAND

PRISONER FLEES FROM HOSPITAL

"Curly" Williams Makes Break For Liberty

TOLEDO NEGRO IS AT LARGE

Hides in Woods Late Friday, Evades Pursuers

"Curley" Williams, 30, negro, escaped from Lima State hospital, Friday afternoon He is still at large.

Williams was committed to the hospital directly from Toledo in March He is said to have served in institutions in several other states, before being sent to Lima state hospital

Williams was employed in the kitchen department of the hospital. He went into the basement on an errand and while there, raised a window This helped him to liberty Explores first discovered him running away from the institution thru the fields

Pursuit was started but according to Dr A C Clark, superintendent of the institution, he is believed to have hid in the woods nearby and then to have taken final departure

IS "BAD" MAN

Authorities in Toledo and Detroit, in both cities of which he is said to be well known, have been notified. Williams is said to be of the mulatto or brown type He was dressed in prison garb, at the time of his departure He was arrested in Toledo on a misdemeanor charge and while awaiting trial, was adjudged to be insane and sent to the criminal hospital here He is said to be a "bad" man

According to Clark, Williams has a checkered career He was sent to Lima with the understanding he was an epileptic but observations made by Dr Clark, according to that authority, does not confirm this belief

FORMER BANKER FEELS RELIEF OVER ARREST

CINCINNATI — Homer H. Dean, former banker in Sutton, West Virginia, who left there in 1914, and who has been living as Henry D. Holt since then, and who was arrested here by federal officers yesterday, said today:

"It's really a great relief. The strain has been terrible even tho I felt I had completely sunk my old identity and that I was safe My arrest was a great surprise to me. I am now ready to face the charges."

CITY GUARDED BY ARMED MEN

Action Follows Battle Between Texas Officers and Negroes

KIRVIN, Texas — (Associated Press)—Race riots of a serious nature reported last night as being feared near here had failed to materialize today.

Armed men guarded the streets of Kirvin and a house occupied by negroes near Simsboro, about five miles from here, but according to the peace officers little further trouble was expected.

The reports of a riot followed attempts of the city marshal of Kirvin, Otis King, and a deputy sheriff to arrest Leroy Gibson, a negro. Gibson is said to have tried to escape and was shot and captured. As the officers started to their automobile shots were fired at them and they returned the fire Eli Gibson, a brother of the prisoner, was killed. The prisoner is said to have grabbed one of the officers and then was kiled. Neither of the officers was injured,

The most prevalent report was that about 75 negroes heavily armed had barricaded themselves in a large house on a farm. Investigation failed to disclose them in the house.

In the meantime hundreds of men from nearby towns started to the scene of the trouble.

UNIONS MAY SEEK INJUNCTION

Writ to Stop Wage Cut Considered by Rail Men

TO COME UP AT PARLEY

Action Will be Decided at Cincinnati Meeting

CINCINNATI —(Associated Press) — Possibility of the use of the writ of injunction in an effort to hold up the wage reductions decreed by the railroad labor board, will be one of the subjects discussed at conference to be held by executives of railroad brotherhoods and organizations in Cincinnati, next week, it was reported in local railroad circles today.

Should it be the opinion of legal advisors of the brotherhoods that there are grounds for asking such a proceeding of the courts, it would be an alternative to a strike vote, it was said

Railroad men said that if the Pennsylvania railroad could hold up even the announcement of the decision of the board by an appeal to the courts, as happened in the case involving the legality of a ballot for the election of a workers' committee to confer on rules and working conditions, then it was declared the same would hold in any activities of the board

SOME OPPOSE WRIT

However, it was said, there are certain labor men who frown on the use of the writ of injunction in behalf of labor They take the position that since organized labor has so frequently declaimed against the injunction, it would weaken their position to now seek to use it.

Grand President E. H. Fitzgerald of the Brotherhood of Railway Clerks, acting for B M Jewell, president of the railway employes department of the American Federation of Labor, has engaged a convention hall in which to hold the conference next Tuesday.

OHIO FARMER SHOOTS WIFE, TRIES SUICIDE

CLEVELAND—James Sterling of Cleveland, shot his wife three times during a quarrel on their farm in Penfield-tp, last night and an hour later attempted to end his own life with the same revolver.

Mrs. Sterling is in Elyria Memorial hospital with two bullet wounds in the neck and one in the hand. Physicians say her condition is serious.

Sterling is under guard in an adjoining ward with two wounds in his head. He will recover, according to hospital attendants

Mrs. Sterling, according to Sheriff Backus, of Elyria filed suit for divorce from Sterling about a month ago.

FORMER MAYOR IS MADE DEFENDANT

F. A. and William Burkhardt Sued for $1,000

Former Mayor F. A. Burkhardt and William A. Burkhardt, a brother, were made defendants in a $1,000 suit filed in common pleas court Saturday by Attorney Cloyd J Brotherton, executor of the estate of Talitha Brammer.

He seeks the sale of property held by the Burkhardts to satisfy a lien held by him as executor.

Talitha Brammer died in 1921, leaving lot 4243 in Lima as her estate. It was sold by Brotherton under permission of probate court for $4,500.

Frank A. and William A. Burkhardt were the purchasers They paid $3,500 cash, petition states and carried the balance.

Brotherton says he is unable to collect the remainder of the money, $1,000 and asks the court to order the property sold to satisfy his claim.

Filing of the case broke the jinx that has hovered over the court since Monday. No new cases were filed from Monday to Saturday.

EMPTY BINS MAY CLOSE PLANTS

Coal Shortage Expected to Stop Many Factories

RESERVE STOCK CUT IN HALF

Suspension in 20 Days Seen by U. S. Agents

(BY PAUL R. MALLON)

WASHINGTON—(United Press)—Industrial activity of the nation will be curbed within three weeks because of a shortage of coal, according to government fuel experts working on the estimates of supply and demand They predicted that within twenty days some plants will be forced to discontinue operations.

The national coal bin now contains 32,000,000 tons The stock has been reduced to that figure from 64,000,000 tons since the strike of 500,000 union miners eight weeks ago.

PRODUCTION REPORT

Production this week is estimated to have run slightly over 5,000,000 tons. Consumption was more than 8,500,000 tons.

The entire stock probably will not be wiped out for seven or eight weeks more—but the stock is not evenly distributed and because of this, it is estimated the pinch of the strike will be felt when the reserve drops below 25,000,000 tons.

Reports show that the railroads are best prepared to meet the expected emergency since they command much larger fuel resources than other industries. The smaller public utilities will be the first to be affected, it is said.

PEACE PLAN PROPOSED

NEW YORK—(United Press)—Possibility that the suspension in the anthracite fields would be ended soon, loomed today, following the arbitration suggestion made by the operators to the union sub-scale committee.

NAZIMOVA TO TESTIFY IN VALENTINO'S TRIAL

LOS ANGELES — Alla Nazimova, celebrated Russian motion picture actress, was summoned today as a witness in the bigamy hearing of Rodolph Valentino.

Testimony as to whether Valentino and Winifred Hudnut lived as man and wife in California after they were married in Mexicali will be sought from Nazimova, who is declared to have been present at the wedding ceremony.

Valentino scored a point when Paul Ivan testified he knew Valentino slept on the porch of his honeymoon cottage at Palm Springs one night and in the front room another night while his bride had the bedroom.

NEW BAN PLACED AGAINST OSER

McCormick Withdraws Consent to Mathilde's Marriage

CHICAGO—(United Press)—Harold F. McCormick today temporarily withdrew his consent to the marriage of his daughter Mathilde to Max Oser, Swiss livery stable owner.

McCormick, guardian of the girl, withdrew his approval temporarily until he could make a more complete investigation into charges made by the girl's mother that Oser was a fortune hunter.

Withholding of his consent for a definite period resulted from a compromise by which Mrs. McCormick dropped her action in probate court in which she sought to have the court restrain the marriage.

Attorneys for Mrs. McCormick appeared in court today and withdrew the petition asking intervention to prevent the marriage.

Altho no formal statement was issued, Edwin Cassels, attorney for Mathilde's father, let it be known that McCormick was going to be sure Oser's love was for Mathilde and not for her riches, before he allowed the marriage to go ahead.

BRITAIN PREPARES FOR WAR

English Fighting Planes and Destroyers Arrive

HOWITZER BATTERY LANDED

Follow on Heels of Premier Craig From London

BELFAST—(Associated Press)—The British forces in northern Ireland were reinforced today by the arrival of twelve officers and ninety-seven men of the Royal Air Force. They were followed by twelve fighting planes

A battery of howitzers was also landed Their destination is believed to be Enniskillen, near the southern border of county Fermanagh, where there is much military activity.

Several troop ships bringing English and Scottish regulars also entered the harbor today.

The military in Fermanagh are commandeering automobiles and boats and it is believed that he recapture of the Balleek salient recently seized by Irish Republican army forces is contemplated.

CRAIG RETURNS

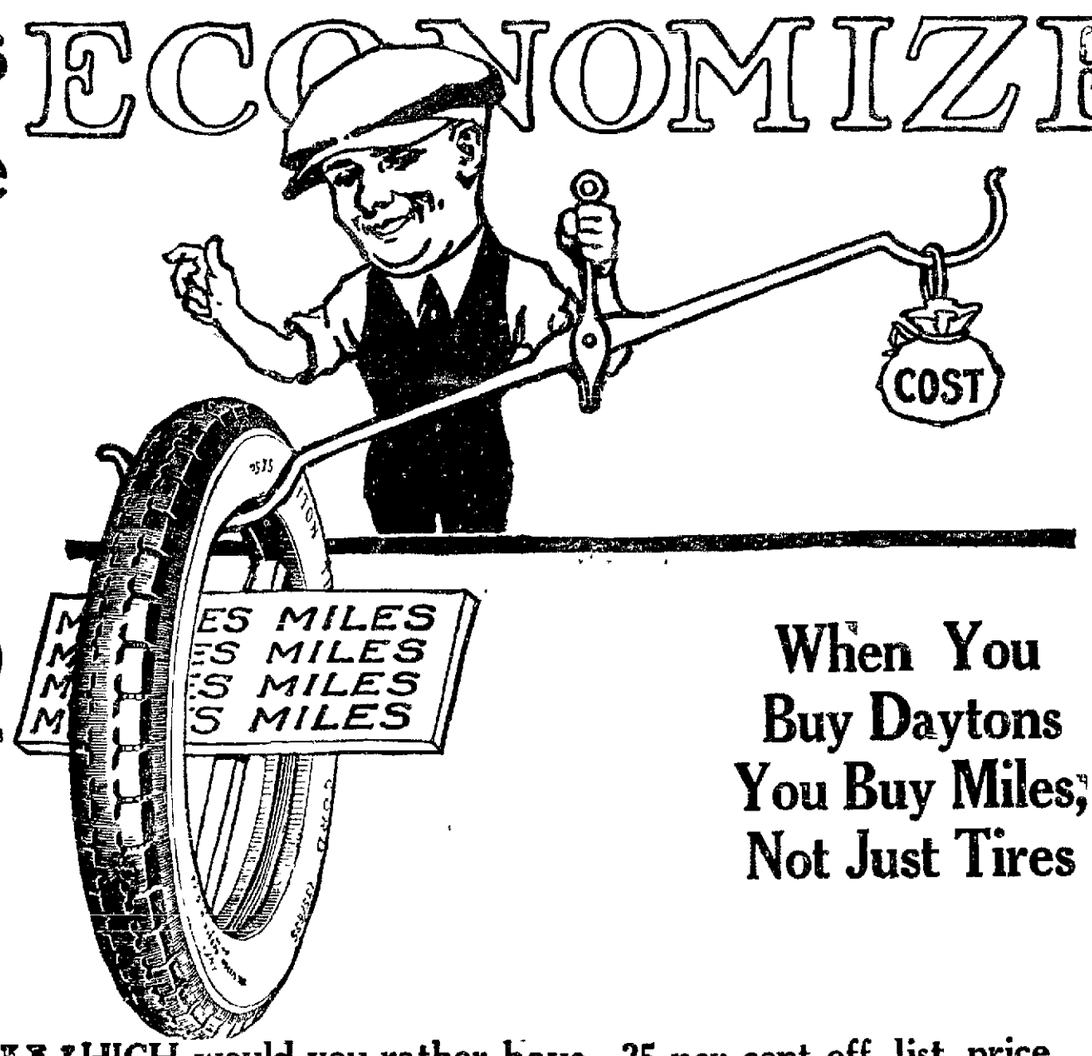

Sir James Craig, the Ulster premier, on his arrival from London, told the newspaper men that his visit had been profitable and that he was pleased with the results so far as northern Ireland was concerned. The British cabinet, he said was now fully advised of the situation from Ulster's viewpoint.

The twelve Bristol fighting planes wil be flown over from England late this afternoon, and will be quartered at Aldergrove, 18 miles from this city.

The crown forces are gradually replacing the Ulster special constabulary men who have been on duty along the border and the latter are returning to police work.

Why Waste Money On Tires Someone Has Had to Cut the Price In Order to Sell?

ECONOMIZE

You Always Get Full Value When You

BUY DAYTON TIRES

When You Buy Daytons You Buy Miles, Not Just Tires

The Worth Is Built Into Dayton Tires, Not Into a "Big Discount Off List Price"

IT'S a fact that you can buy other tires for less money, but not better tires. You will find some tires listed at the same prices as Daytons, but retailing with abig discount which might tend to disarm you against your judgment as to which tire may be the best value. And, it's a fact there are other tires selling at the same prices regularly as Daytons—some even higher—but we have not found a better tire no matter what price you pay.

Depend on it, there are no side-issues to Dayton tires to affect your judgment. The tires are producing the MILES; the price is right. Weigh the miles a tire will deliver, when you weigh the cost. THEN you'll buy Daytons every time. Come in and investigate for yourself.

WHICH would you rather have—25 per cent off list price or the full mileage you actually wish to buy? Isn't it mileage you are after?

For example, you put a dollar in the bank at a certain rate of interest. You expect your dollar to keep its full value and still earn the interest. You would know something was wrong if the bank said, "You don't have to deposit a dollar to get our regular interest; just deposit 75 cents. It's all the same." Why should you expect a tire dealer to jump the traces of business ethics and sell tires for his health? It isn't done.

But there is a way to buy tires and be sure of the value — Buy for mileage. Come in and learn about Dayton guarantee.

COUNTY CAN'T DO PINE-ST WORK

Lippincott Rules on Bridge Approachment Reconstruction

NOT ELIGIBLE, IT IS HELD

Will Spend $18,000 on Elm-st Structure

No county money can be spent on re-construction of the south approach to Pine-st bridge. Eugene T. Lippincott, prosecuting attorney, declared Saturday in an opinion to the board of commissioners. The street is not one eligible for improvement with county money, he told them.

Efforts have been made recently by the city to induce the county to pave the Pine-st approach, as well as the Elm-st approach.

The two structures meet at the apex of an angle on the south bank of the Ottawa river. The county is planning to pave Elm-st bridge and approaches. An appropriation of $18,000 has been made for this work.

WILL KEEP PROMISE

City Manager C. A. Bingham recently conferred with the commissioners and urged them to hasten their action. He was informed that the county commissioners intended keeping their word and will do the work all in good time.

The county board, however, will refuse to turn the money over to the city. It has been advised that it would be illegal to do so.

An opinion on the legality of taking on the Pine-st approach was asked of Lippincott.

He gave as his opinion that no county money can be spent on Pine-st. It is a city street. Elm-st, however, is classed as a county road, having been a mode of travel in and out of Lima since pioneer days.

Early settlers coming in from the east and south used the street to reach mills, stores and foundries located in E. Elm and W. Water-sts.

Approach to Pine-st bridge on the south was filled up with earth to build the grade for Elm-st bridge. The city has no money to reconstruct it.

MAY EXCEED ESTIMATE

Paving of approaches for Elm-st bridge may exceed the amount appropriated by the county. Two approaches on Elm and Jackson-sts on the west side of the river will have to be paved back for a considerable distance, as well as the bridge itself and the east approach.

An estimate of the cost will be given the county board as soon as surveys are completed by Walter R. Toy, county engineer. The county will do the work.

The commissioners will carry the work as far as the money in hand will permit.

FELL FROM BED, CHILD SUFFERS SCALP WOUND

James Cira, three-year-old son of Mr. and Mrs. Augustus Cira, 821 N. Metcalf-st, suffered a deep wound in his scalp when he fell from his bed, while playfully capering around before arising.

The child was removed to St. Rita's hospital, where it was found necessary to take several stitches to close the wound. He will be forced to remain at the hospital several days, it is announced.

RE-ARRESTED, PAYS FINE

Andy Renardi, 27, of 136 E. Fourth-st, was arrested Saturday on a writ of execution, charging failure to pay a fine of $100 for a Crabbe Act violation more than a month ago. The deposit was made in criminal court and Renardi released.

BOAT SEIZED IN RUM BATTLE

12 of Crew Arrested by New York Dry Agents

30 SHOTS FIRED IN FIGHT

Launches, Gathered to Take off Liquor, Escape

NEW YORK—(Associated Press)—Federal prohibition agents early today seized the ocean-going tug Ripple in the harbor off Brooklyn, arrested twelve members of her crew and fired thirty pistol shots at nearly a score of launches which had gathered to take off a cargo of liquor.

As the agents had no craft, the launches escaped.

The tug which was used as a mine layer during the war, arrived off Ambrose Light three days ago but waited until last night before attempting to slip into the harbor. Agents disguised as longshoremen searched the water front, finally locating the tug near the Erie basin.

At a signal, the agents, who meanwhile had been reinforced by a detail of police, rushed for the tug.

When the agents climbed on board the tug they said they saw the crew throwing rifles into the water. There was a hand to hand struggle before the crew was arrested.

INDIAN MAIDEN HONORED BY THE AMERICAN NATION

NEWPORT NEWS, Va. — The tribute of a nation to the Indian Maiden who saved from "death, famine and utter confusion" the first struggling colony of white men from which it has sprung — the William Ordway Patridge statue of Pocahontas — drew grateful Americans from many states today to attend the unveiling ceremonies on the historic ground of Jamestown Island.

Conducted under the auspices of the Pocahontas Memorial Association the picturesque feature of the unveiling program was the group of little girls, all tracing descent from the famous Indian maiden, who were selected to draw the curtain from before the monument representing the girlish figure of the protector of Jamestown colony, standing with arms outstretched in welcome to the white settlers.

"MY SENSATIONS AS I WATCHED DOCTORS CUT INTO MY HEART"

By OTTO THOME

First Man Operated on Under Influence of "Nerve Block," the New Anesthesia, Which Deadens Only Local Parts of the Body.

CHICAGO—I had been discharged from the navy as a hopeless invalid because of an abscess on the left lung.

On three previous occasions I had undergone operations with ether, none of which could be completed, because of the ether's effects.

Then Dr. Nelson H. Lowry took me under his care and soon after I was placed on an operating table at the Illinois Masonic Hospital in Chicago.

Nerve block anesthesia was administered to me and soon my entire left side around the region of the lung seemed to have gone to sleep.

SEVEN RIBS REMOVED

My mind was clear tho, and I laughed and joked with the nurses while I watched the doctor remove seven of my ribs while I lay in a sort of half sitting position.

Then with his knife the doctor worked into my heart, so it seemed, opening all the walls around the abscess.

It was fun to watch my heart throb. I even reached over and touched it.

Thruout all the operation I felt no pain.

In fact it was amusing to watch my internal organs function.

No one can ever tell me that I have no heart. I know I have.

GAINS 40 POUNDS

I have gained 40 pounds since my heart was an open secret even to myself.

Nerve block, the doctor told me, is like a local shutdown on a great electrical circuit.

Years ago when there was a break in the line, engineers had to close the whole power plant.

Now they merely plug out the affected part and the rest of the mechanism continues to function.

So surgeons have perfected a method of shutting off the nerve supply for an affected part of the body.

In this blocked area there is no sensation, and any repair can be made without pain or discomfort, while the rest of the body is functioning as usual.

SENATOR SHAFER SEEKS RETURN

Entry for Second Term Crushes Hopes of Lima Men

State Senator Claron L. Shafer, Scott, is out for re-election to the upper state law making body, on the Republican ticket, it was learned Saturday.

Senator Shafer filed in Van Wert co in April, but his nomination papers have not been certified over to Allen co election board. This may not be done until after the final date for filing.

Announcement of Shafer's candidacy caused several prominent Allen co G. O. P.'s to abandon aspirations for the job.

William A. Tierney, Republican and former member of the Lima city council, filed Saturday for the Republican nomination for state representative.

Declaration of intention of Congressman John L. Cable has been recorded at the board of elections. J. Henry Goeke, his leading prospective opponent on the Democratic ticket had not filed at noon Saturday.

The child was stricken Friday afternoon. There is little change in her condition, according to announcement from the hospital.

PLANNING EXPERT TALKS ZONING

Lima's Needs Pointed Out by Cleveland Man

A city's development depends upon the way it plans for the future and protects the property of its citizens, Robert W. Whitten, Cleveland, City planning expert, told a mass meeting at the Elks home Friday night.

"A city protects the property of its citizens from fire and theft, why should it not protect their property from the erection of improper buildings and the consequent loss?" he asked.

Lima needs zoning immediately, Whitten said. This decision was reached after a short survey of conditions here. In this stand he is supported by the city commission and the chamber of commerce.

"If a zoning and planning ordinance is put into effect now Lima will be able to reap the fullest benefits. A delay of three years will be disastrous," Whitten said.

Zoning was defined by Whitten as the confining of the different classes of property in certain zones. This would keep factories out of residence districts, he said.

City planning is arranging for future growth of the city so that it will be beautiful, have park facilities and be a better and more healthful place to live in, he added.

A chamber of commerce committee, headed by Ralph Austin, arranged for the meeting at the Elks home so that Lima citizens would be able to learn more about the zoning program.

Members of the city commission and C. A. Bingham, city manager, were present. It is understood that the zoning ordinance will be presented to the commission within a week or two.

AT LAST — THEY GROW LONGER!

It is true—actually true—that skirts are longer; and that is a sign that the terrible schism that has disrupted the world of fashions for two years finally is healed..

Two years ago Parisian designers said skirts were to be longer and for all the seasons of these two long years American women have continued to wear them short.

However, the breach is healed America admits that, perhaps, after all, skirts are longer.

The lines of all the newest frocks are very simple. Low waistlines and longer skirts are worn. The trimming does not break the lines of the dress (no ruffles or puffs') but consists for the most part of colorful embroideries or flat trimmings applique.

SILK GLOVES

Very fancy gloves of silk are being shown. Sometimes they have ruffles and pipings of a contrasting color, and sometimes they are tucked or heavily embroidered.

GREEN LACE

One New York store is featuring gowns of Nile green organdie, trimmed with ruffles of lace dyed exactly to match the frocks. Green is one of the most popular colors for summer.

"YELLOW MEN AND GOLD" UPSETS TRADITION

(BY ESTHER WAGNER)

THE photo-dramatization of Gouverneur Morirs' "Yellow Men and Gold" is interesting because it puts the safety of a white man in the hands of a crew of Chinese, all trustworthy, and makes villains of white men.

That violates a long standing the false tradition of the movie which has established the yellow man as a figure of villainy.

However, the melodrama is presented as the plot of a story conceived by a young writer, who employs his neighbors as the characters of his fiction. This gives excuse for the breaking of tradtion perhaps. It also gives full play to the imagination in constructing the melodrama.

Melodramas again are returning to favor on the screen, but the action of most of them appears forced and not at all plausible. The director and the scenarist do not make clear that the story is entirely imaginative.

Helen Chadwick and Richard Dix are featured in "Yellow Men and Gold.' They have played together in a number of films made by the Goldwyn stock company but have not yet achieved stardom.

* * *

Twelve years ago Robert Cain, now playing the heavy in "Burning Sands," appeared with Mary Pickford and King Baggot, making a picture in New York. Exteriors of Sing Sing were required but the expense of going up the Hudson to Ossining was too great, so the cast of three and the director went across the river to take the scenes at Hackensack-co jail. The movies do grow!

The next Movie Chat shows how one should behave at the table. Among the admonitions are these: Don't place your napkin anywhere but in your lap—and don't unfold it entirely. Never lean upon the table; hold yourself in an erect but not stiff position Never place your knife to your mouth for any purpose whatever. Never blow your soup to cool it.

The movies may yet make eating in public sufferable for those who live to eat and insufferable for those who eat to live.

Drama of the Northwest—Sigma

A POWERFUL drama of the Great Northwest, directed by Harry Revier, is the attraction again today at the Sigma.

Roy Stewart who has achieved an enviable reputation for powerful character delineations, gives a strong and commanding performance in the dual role of Maupome the outlaw, and John Whitley, his twin brother. New York critics unanimously agreed that in this production Stewart rises to the height of his artistic career. Great interest is aroused by this production because it is Mr. Stewart's first appearance in a dual role that demanded such a wide distinction in the portrayal of the two characters in this vivid drama.

Mr. Stewart deserves credit for the introduction of a novelty in character interpretation, and for his honest effort to deviate from the conventional type that has too often found its way to the silver sheet. He is supported by an all star cast headed by the charming Louise Lovely.

ARTHUR B. REEVE WRITES RADIO ROMANCE

Especially for The Lima News

THE FICTION SCOOP OF THE DECADE

The Lima News recognized the many radio fans among its readers would like to read a good radio romance. It sought such a story, but couldn't find one--for none had been written. But, through NEA Service, it engaged Arthur B. Reeve to write such a serial for original publication in this paper.

No need telling who Reeve is--millions throughout the world are Reeve fans. Reeve's celebrated character, Craig Kennedy, scientific detective, is universally famous in fiction, on stage and on screen.

Reeve refused to undertake The Lima News' commission "unless I can write a story that will add to my reputation." It was this spirit that has produced

HOW TO GET KILLED

WHENEVER you use a ladder, remember that it is the most dangerous device in existence. Ladders continue to cause more accidents than anything else. This is shown by insurance experts' latest check-up of fatal and non-fatal casualties.

Every minute of the day and night, 23 Americans are seriously injured by accidents.

In the last four years, accidents killed or injured more Americans than the total killed on both sides in the World War.

Human deaths by accident in the United States average around 60,000 a year, or 165 a day, according to the census.

YOU are, of course, "afraid of getting injured." And of what are you most afraid? Autos, probably.

Yet, for each 67 people killed by autos, 68 are burned to death, 86 die in railroad accidents, 56 are drowned, 26 die in mines, 34 are asphyxiated by gas, 21 are killed around machinery, 23 by street cars, 23 by bicycles and horse-drawn vehicles.

And, topping the list, 111 are killed by falls—from ladders, out of windows, down elevator shafts or slipping on icy sidewalks that could be made safe by a sprinkling of ashes.

Read these figures a second time, record them indelibly in your brain and you'll know what to be careful of unless you want to meet the undertaker.

NEARLY all accidents are the result of carelessness—taking needless chances in the face of danger.

Obviously, then, nearly all accidents could be prevented. The prevention of accidents, according to safety engineers, is about half safety devices and half personal caution.

It is now 22 years since Dr. William H. Tolman returned from Germany, where he had been studying accident prevention, and started the Safety First movement in our country.

That movement has worked wonders. For one thing, it has reduced railroad deaths to a third of what they were in 1907.

The trouble with the Safety First movement always has been that it is spasmodic. Between celebrations, the public gets lulled into carelessness, then accidents burst forth again on a big scale and another Safety Movement is started.

To keep the Safety First fires burning constantly, several hundred prominent citizens have just formed a national Society for Prevention of Accidents.

To help in this movement and protect your own life and body, you merely have to observe two simple rules: First, keep your eyes open. Second, be cautious, take no chances.

MASTER-CRIMINAL

MOST remarkable criminal of history was Hugo Breitwisser of Austria. He planned his career from youth. Went to college, studied engineering, to learn about acids and metals to be used in breaking into vaults and safes.

Then, to learn what to avoid, he took a post-graduate course under Dr. Hans Gross, master-criminologist of the University of Gratz.

Hugo was a Robin Hood, divided his plunder with the poor. For years he gave the Vienna detectives thrill upon thrill. Finally he retired to a small town, and was caught because he was so exceedingly careful not to attract attention that he aroused a detective's suspicions. "Give them enough rope and they hang themselves."

DETECTIVES

A DETECTIVE'S life is dull and monotonous, says William J. Flynn, ex-head of the Secret Service.

Flynn laughs at the notion that detectives are super-men. He tells Marian Storm, New York writer:

"If you want some reading that will put you gently to sleep, try a detective's record of a sensational case just as he keeps it: 'Interviewed three shoe clerks; no result. Analyst reported poison potion to be talcum and water.'"

Despite all this, a big detective has more thrills in a year than the average person in a lifetime. Like the rest of us, they get "fed up," bored. Everything is relative. A candy store clerk soon hates the sight of chocolates.

JAIL-HOUSE

HERE'S a man, 90 years old, who has been a jailer since 1848. He is E. Newell Hunting, superintendent of broom-making in the state prison at Charlestown, Mass.

For 74 years this man has watched convicts come and go. He has studied them, studied prisons, watched prison reform, probably knows more about prisons and prisoners than any living man.

And this is his strongest impression: "Criminals have less of the stuff that makes men than they did in the old days. Most of them now are trash and gutter-snipe, practically all of them lacking pride, upon which the reformation of any man depends."

Hunting is convinced that the country is going to the dogs. He bases his belief on the modern type of criminal.

BUILDING

IF planning a house, here is something that will help you.

The Copper and Brass Research Association estimates that the "building dollar" is spent like this:

Masonry 36 cents, carpentry 29, heating about 8, painting about , electrical work 6, plumbing 6, roofing 3, hardware 1, sheet metal work about 4 cents.

The figures, of course, vary for different types of dwellings. They have the universal value, tho, of remaining builders not to forget to "figure on" the incidentals.

BABEL

HUGH HOWELL, who will edit the new newspaper devoted to interests of the Indians, says: "Under old conditions, a concerted action by Indians was impossible. There were tribal differences, to begin wth. Then, there were scores of Indian languages, making communication difficult. Now things are different. The Indian schools have educated all of the younger generations in English."

From the red Americans, white Americans can learn the value of united action and a common tongue. Induce the new arrival to learn our language and "join our gang."

Which means prohibition has done good where least expected, and the Garford should benefit.

Up to congratulate Jacob Renz on his making of dough these past 35 years and to offer our safety boxes as storage. Out to inquire concerning Earl Leach, the managing scrivener of this paper, in hospital after a serious operation. And he reported doing fine, but unable to see visitors yet awhile. Nodded to Doc Aaron Jones, who pulls 'em without you knowing it. The only real painless dentistry I ever tried! Met an electric lamp lighter at work on West North, but instead of reaching up he was digging down.

Home to lunch on minced bull over toast, smothered in young onions from George's own garden. Over to the club to borrow a fag. Ralph Mackenzie, the barrister, spoke in fine fryendliness, and Johnnie Carnes, the first aid to modern cooking manufacturer, eating pork and beans. In came for a chat the husband of my rich sister from St. Marys and as we talked, Pat Goonan handed us two 25c brands. For which I must thank Pat. They saved me a half-package of Camels.

Dan Morris, the clothier, invited me up in the Woolworth Tower, but prone to dizzyness, I declined. By American Express came a big lake fish from Walter Scott, scales and all to show weight. Came also a bouquet from Williams & Davis, the undertakers, wishing many returns of the day, but not to have more. A happy thot.

Home to my birthday dinner and to blow against the forty candles, winning another happy year under adage. And in the evening to a cinema on Market and then to bed.

Motion Is Denied

MILWAUKEE — Judge John Gregory in circuit court today denied the motion of attorneys for Oscar "Happy" Felsch, outlawed baseball player, to have Charles Comiskey, owner of the Chicago White Sox and his son, Louis, appear in Milwaukee under the discovery statute for examination in connection with a suit in which Felsch seeks back pay, bonus and damages resulting from his expulsion from organized baseball.

Ripples began appearing on the surface of the dormant scandal which rocked the big leagues last year when Felsch filed his suit several weeks ago. A revival of the scenes which threw Eddie Cicotte and other members of the Chicago White Sox out of organized baseball was promised. It was reported that Cicotte, Claude Williams and several of the others were about to follow Felsch's action in filing suit.

Charges tantamount to an accusation that the Detroit Tigers accepted a pool to allow other teams to win, were made and denied by Ty Cobb, manager of the team.

Further complications are expected before the Felsch suit has been given its final airing.

Rosebud's Death Regretted Among Turf Followers

LOUISVILLE, Ky. — The announcement that Old Rosebud had met with an accident which forced his owner to destroy him was received with regret by all followers of the thorobred sport. But in the Blue Grass the loss of the once great race horse touched a much wider circle than that composed exclusively of followers of the turf.

For Old Rosebud was a true son of the Blue Grass. The time in which he won the fortieth renewal of the Kentucky Derby in 1914—2:03 2-5—still stands as the record for the classic, notwithstanding the sterling thorobreds, including Sir Barton, Omar Khayyam, Regret and Morvich, that have gone the mile and one-quarter to win the race in the eight years that have passed since the sturdy son of Uncle led the field to the wire at Churchill Downs. His name has been a household word and the symbol of speed in Kentucky homes for years and persons who never had witnessed a race spoke familiarly of "when Rosebud won the Derby."

BOUGHT IN 1912

Old Rosebud was purchased from John E. Madden by Hamilton C. Applegate and Frank Weir for a trifling sum as a yearling in 1912.

Before meeting with an accident in his early three-year-old form he was probably the speediest race horse this country has ever known. As a 2-year-old he ran five-eighths of a mile at Douglas Park in 58 2-5 with 115 pounds up.

Writing of the death of the great racer, V. Sanders, turf writer and member of the staff of the Louisville Times relates the following incident in connection with a superstition entertained by Mr. Weir that to permit the holder of the Derby record to be photographed would bring bad luck to the splendid animal.

"Just after Old Rosebud had won the Derby I was assigned by the managing editor of the Times to take the staff photographer to the Downs and get a picture of the horse in action. Mr. Weir threw up both hands and flatly refused me a picture of Old Rosebud, saying, 'It's the worst luck in the world. I shall never consent to your taking Old Rosebud in any position.'"

NO PHOTOS

"I saw Colonel W. E. Applegate, father of the half-owner of Old Rosebud, and asked him to arrange it. He tried hard to get Mr. Weir to bring the horse out on the course but to no avail. Finally Colonel Applegate told me that the colt was going to be worked the wrong way of the course the day before he was to be shipped east and if I could have the photographer there he thought there would be a chance to get his picture. We were on hand and Old Rosebud was brought out and given a stiff breeze. The photograph was made, showing his wonderful stride.

"That afternoon he was taken to Belmost Park. In his first race there he practically broke down. Mr. Weir, when he heard that a picture of the colt had been made before he left Louisville, attributed his mishap to that fact."

Twas Just A Little Salary Argument

BASEBALL abounds in unusual situations on and off the ball field.

The case of Pitcher Ed Rommel of the Athletics bears this statement out.

Last winter Rommel and Connie Mack disagreed over salary. Rommel was of the opinion that he was worth much more than Mack offered

"I am thru pitching major league ball for a minor league salary," is the way Rommel put it. "I will never play ball for Mack again."

SAID 'TWAS A SECRET

Connie Mack, who is always there with the retort courteous, came back with this one:

"If Rommel has been pitching major league ball since I joined the Athletics, he has kept the matter a secret."

Then to end the argument Mack advised Rommel to take his salary grievance to Commissioner Landis. The judge politely refused to listen, saying that it was no affair of his.

Rommel finally decided to join the Mackmen. What salary he received no one knows.

PITCHED FINE BALL

However, there is no denying the fact that Rommel has pitched major league ball since the opening of the season.

Rommel won six of his first seven starts and bids fair to have a big season.

"Rommel has been pitching the ball of which he is capable," says Connie. "He should win many a game for me."

All of which is very much different from the winter dialogue.

FIGHT RESULTS

SYRACUSE — Young Fisher, Syracuse middleweight, won a 12-round decision from Jimmy Darcy, Portland. Eddie Record, Montreal, knocked out Jack Holland, Syracuse, in the second round.

NEW YORK — Jack Sharkey, new York feather, won a 12-round decision from Jack Hauser.

HOUSTON, Tex. — Johnny Tillman, St. Paul, shaded Jack Palmer, Philadelphia, in 12 rounds.

Pittsburg Closes In

NEW YORK — The Pittsburg, Pirates, who have been snapping at the heels of the world's champion Giants for some time, had another chance to go into the National League lead today by winning and if New York lost to Boston. The McGraw men, whose pitching and fielding has slumped in the past few games, dropped another to the Braves yesterday, 7 to 3, the victors bunching their hits to better advantage while Miller, a recruit, held the Giants safe. The Pirates were idle and gained a half game, leaving only a single game between them and the top.

HITS 14th

Kenneth Williams' 14th homerun helped St. Louis take a slugging bee from the White Sox, 12 to 4, and gave undisputed lead in the circuit clouting race. He is one ahead of his National League rival, Rogers Hornsby of the Cardinals. George Sisler also had a busy day with four hits, including a triple, out of five times at bat, two runs and a stolen base.

Cincinnati had a field day at bat against four Chicago pitchers, knocking out 18 hits for an 11-7 victory. Caveney and Duncan led the attack with homeruns.

COBB RE-INSTATED

The crippled Tigers, who lost their second straight to Cleveland, 9 to 4, altho, hitting Coveleskie hard, promised to take a new lease on life today with their leader, Ty Cobb, and slugging outfield star, Harry Heilmann, back in the lineup after a suspension of several days.

President Ban Johnson lifted their exile, pending a decision on the dispute which resulted in Cobb's banishment for stepping on Umpire Wilson's toes with his spikes.

SMITH MAY SIGN NEW MITTSMAN

Another aspiring pugilist may grace the already well-stocked stables of Earl Smith. The new entrant among the local knights of the roped arena may be "Irish Jimmy" Clayton, who is dissatisfied with the murky atmosphere of his beloved Pittsburg and wants to get on here.

Jimmy is 19, reputed a whirlwind in the lighter division and lays claim to a number of victories. Smith has written for the pedigree and maybe soon Messrs. Gross, Young, et. al., may rub elbows with the second Keystone youngster who has aspired to honors in these parts recently. The other was Frankie Susnell, who found the going against Don Baxter so tough that he decided he had better not risk anything more in this neck of the woods where a pug's a pug and slugging is slugging.

HOW TO PLAY BASEBALL

Perkins, Star Catcher, Tells How He Has Succeeded

BY RALPH PERKINS
Brilliant Backstop—Philadelphia Athletics

PROPER handling of the ball is a catcher's greatest asset.

I believe I am conservative when I say that 75 per cent of a catcher's value to his club depends on the actual receiving of the ball.

A catcher who is constantly dropping pitched balls is bound to upset his pitcher, also the rest of the ball club.

Trying to handle the ball before it reaches the catcher is what causes most of the backstops a lot of trouble. It results in what is known by ballplayers as "fighting the ball."

When a catcher fights the ball he is constantly courting injury. Wait until the ball reaches you is one of the most important bits of advice I could offer to ambitious catchers.

I always prefer to catch the ball directly in front of me. By so doing you are never off balance, always in a position to throw.

A strong throwing arm is much to be desired but not actually necessary in order to be a great catcher.

The accurate thrower is the successful catcher in the long run. Accuracy is far more essential than speed. It is very advisable to practice getting the ball away as quickly as possible. A fraction of a second lost in making the throw often spoils the play.

The pitcher must hold the runners on. Laxity on the part of the pitcher in watching runners makes all kinds of trouble for the catcher, also the rest of the team.

Talk to your pitcher constantly. Keep offering words of encouragement. Never bawl the pitcher out on the field. Always wait until you reach the bench to argue out your disputes.

When a runner reaches first watch him closely. Most runners have some peculiarity they resort to when about to go down. When you learn their mannerisms it is easy to call for a pitchout and break up the steal or hit-and-run play.

Tomorrow the playing of first base, once considered a soft job, but now a most difficult one, is taken up.

FINAL ATTACK ON RECORDS TODAY

IOWA CITY, Iowa — Track stars of the big universities of the midwest dug their spikes into the cinder paths on Iowa Field today in an attack on records in the finals of the Western Conference outdoor track and field championship meet. Indications were that the University of Illinois team, which won the 1921 outdoor and indoor championships of the Big Ten would score an overwhelming triumph, with Notre Dame, Wisconsin and Minnesota fighting it out for second place honors. The meet attracted stars from all the universities in the Western oConference, some of the Missouri Valley teams, Notre Dame, Butler, the Michigan Aggies and other leading schools in this section.

WRESTLE TO DRAW

COLUMBUS — Earl Caddock and Stanislaus Zbyszko, both former heavyweight wrestling champions of the world, wrestled to a draw here last night. Each grappler scored one fall.

FIVE COLLEGES IN

COLUMBUS — Representatives of five Ohio colleges and universities remained in the running today in the Ohio Intercollegiate Tennis Tournament which yesterday at Ohio State University. Semi-finals of both the singles and doubles were scheduled for this morning and the finals this afternoon.

Pitted against each other in this morning's singles play were Wirthwein of Ohio State and Marvin of Oberlin, and Weir of Wooster and Steele of Cincinnati. In the doubles Savage and Cole of Wesleyan were slated to meet Johnson and Steele, Cincinnati, and Wirthwein and Carran, Ohio State, were to play Parkhill and Marvin, Oberlin.

LIMA MEN HIGH

Four local men, William Ferry, Ward Miller, J. R. Jones and A. M. Herrett, copped first four positions in the Lima Gun club shoot Friday at the grounds on E. Elm-st. Tabulations of the results were being made today by the secretary, J. R. Jones.

JINX HANGING TO GROSS

Old Man Hard Luck stil is dogging the footsteps of Jake Gross, Lima featherweight. Not content with tying Jakie's left arm in a knot with a strained ligament, causing a postponement of his fight with Willie Ames May 26, the old jinx has further increased his difficulties. It is doubtful if Gross will be in good condition to scrap Ames in Barberton Tuesday night.

In addition to working under the handicap of a crippled wing, Jake now is nursing an injury to his right hand and fears several teeth with front positions are about to elope from his jaws "Gooch" Masterpole, with whom he was sparring several days ago, started the grinder on the way in an exchange of head butting.

Earl Smith has an attack of the "blues" over the persistent nagging of his protege by the hoodoo. What with business worries—Jakie practically manages a laundry by his lonesome—overwork and a host of other difficulties, Gross will not be at his best when he greets Akron's Willie.

But the boy's manager says he will not be 'fish' for Ames nor will he skip into the arena on anything les than even terms so far as aggressivenes is concerned. But Ames is the toughest fighter Gross has ever squared against. No chances will be taken.

It is doubtful if Gross will get to fight more than twice monthly in the future unles something operates to relieve him of some of the burdens of business.

Molla's Defeat Means Nothing

(By HENRY L. FARRELL)

NEW YORK — Defeat of Mrs. Molla Mallory, American tennis champion, in the Middlesex tournament in England, doesn't mean much.

Mrs. Mallory is pointing for the Wimbledon championships and her defeat in a minor tournament does not show that she is off her game.

If Mlle Lenglen and Mrs. Mallory should meet for the British title, the final ought to smoke as the French girl is already starting the personalities that caused bad feeling between them last year.

Mrs. Mallory, while she accepted it in silence, is not temperamentally fit to make the remark the French girl made after the defeat of the American—"I always did think that Elizabeth Ryan was a better player. It would be too bad if Mrs. Mallory didn't reach the final round at Wimbledon."

Before sailing Mrs. Mallory confided to friends that she was out 'after the French girl" and that if she didn't beat her this year, she thought she ought to give up tennis.

MAD HATTER RULES RACE FAVORITE

NEW YORK — Mad Hatter, bearing top weight of 130 pounds, was the favorite in the 36th running of the historic Suburban Handicap at Belmont Park today. The field, including only four horses, was one of the smallest to face the barrier in the history of the rich turf classic. Besides Mad Hatter, the entries were Sonning's Park, with an impost of 127 pounds, Captain Alcock, 108 and Flying Cloud, 102.

Audacious, winner of last year's race, and Yellow Hand were looked upon as prominent candidates for the Suburban until leg injuries recently forced both into retirement.

Sisler, Gowdy Lead Major Hitters

CHICAGO. — Ed "Bing" Miller, the slugging outfielder of Philadelphia, is giving George Sisler and Ken Williams, the St. Louis stars, a hot race for the leadership in batting and home run hitting in the American League, according to averages released today.

"Bing" smashed out a brace of homes in his last six games and now has an even dozen—just one less than the slugging Williams, who jumped out in front at the start of the season. The averages include games to Wednesday.

SIS HAS .425

Sisler is topping the batters with an average of .425. The batting mark of the St. Louis star was given a set-back in the series between the White Sox and Browns, but the St. Louis favorite appears to have again struck his stride. In last 31 times at bat he has driven out 11 hits, giving him a total of 76 hits thus far. He leads in total base hitting with 110, which include eleven doubles, three triples and five homers. Miller is right on his heels with average of .387.

Sisler is giving the base stealers the dust, his nearest rival being his teammate Williams. Sisler has stolen 18 bases while Williams has ten.

Other leading batters for 25 or more games:: Speaker, Cleveland, .383; Cobb, Detroit, .381; Witt, New York, .378; O'Neill, Cleveland, .377; Schang, New York, .354; McManus, St. Louis, .333; Severeid, St. Louis, .331; Judge, Washington, .330; Heilman, Detroit, .329; Blue, Detroit, .329.

George Toporcer, the slugging shortstop of the St. Louis Cardinals, who topped the National League batters a week ago with an average of .404, connected safely only four times in 31 times at bat, and fell into thirteenth place with a mark of .336.

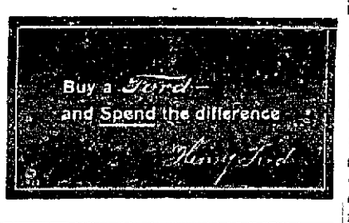

HANK HOLDS LONE .400

Hank Gowdy, Boston catcher, is the only batter in the league hitting over the .400 mark. His average for 25 games is .403. Griffith of Brooklyn, who played in a like number of contests is the runner up to Gowdy with an average of .394.

Rogers Hornsby of the Cardinals crashed out four home runs, bringing his record to 13. The St. Louis star is the first man in the League to pass the century mark for total base honors, being out in front with 112 bases. He is in fourth place among the batters with an averages of .377, just ten points behind Bigbee of Pittsburgh, who is third with .387.

—Bancroft of New York has tied Hornsby for the honors in scoring. Each having crossed the plate 38 times. Carly of Pittsburgh leads the base stealers with 10 thefts.

Other leading batters for 25 or more games: Hargrave, Cincinnati, .376; T. Griffith, Brooklyn, .374; Kelly, New York, .363; Maranville, Pittsburgh, .357; Grimes, Chicago, Bancroft, New York, .343.

HIS FRIEND RECOMMENDED THEM

"Six years ago," writes W. H Shadwell, Stanley, Va., "I had kidney trouble, and at times was unable to raise myself in bed. Foley Kidney Pills were recommended to me by the Chief of the Fire Department. After using 3 bottles I was completely relieved and have never had a return of the symptoms." Why suffer when you can get relief from rheumatic pains, backache, swollen, sore and stiff joints, sleep disturbing bladder weakness and other symptoms of disordered kidneys? Chas. J. Vortkamp, Main and McKibben-sts.—Adv.

HOOVER PRAISED IN COAL ACTION

Forbes Comments on Price Pact Made at Parley

SEES GENERAL BENEFIT

Believes Profiteering in Other Lines Nipped

(BY B. C. FORBES)

NEW YORK — (Special) — "I take the responsibility on my own back when I say what is a fair price and I ask every operator, individually to adhere to those prices.

"I do not believe a man should accept public office unless he is willing to take the responsibility in an emergency."

* * *

Thus spoke Herbert Hoover to the coal operators. Haven't his words a straight-from-the-shoulder ring? Don't they betoken that he is manly?

* * *

Isn't it well that we have in the cabinet one man who has courage and brains and business sense, yet who doesn't hesitate to protect the public interest? Hoover has seen so much of the hardships suffered by humanity's "submerged tenth" that he understands better and sympathizes more with their troubles and difficulties than do most men holding high places at Washington. He realizes, therefore, that it would be iniquitous, from every point of view, to allow coal producers to mark up coal prices to dizzy heights, for we would soon find prices for various classes of merchandise being raised, on the excuse that excessively dear coal had increased the cost of production.

* * *

Oftener than once lately there have been revelations which suggested that employers and employes in certain industries worked in teams to raise both wages and prices. It is not at all certain that this game has not been worked in the past in the coal industry.

* * *

Adding a few dolars a ton to the price of coal doesn't make the available supply last one hour longer. Scarcity cannot be made good by simply boosting prices. The only persons who benefit from profiteering prices are the coal sellers, parties to the dispute responsible for the stoppage of normal supplies. Doubtless there were interests in the coal mines, who hailed the strike as affording them opportunity to pocket substantial profits from the enormous surplus stocks which they had accumulated. Herbert Hoover's timely and decisive action should spike their guns.

* * *

Business men frequently bewail the "interference" of government with business. But they themselves are responsible. If there were no reason for interference, there would be no interference.

* * *

Take the present coal situation. If in the past coal prices had not been outrageously boosted when strikes occurred, if coal producers and sellers had strictly adhered to normal prices during periods of scarcity, there would have been no demand on the part of the public that the government step in and lay down the law to the coal people as to what they must do and what they must not do. But the public, from past experience, felt very keenly that they would be robbed if the coal people were given freedom to do what they pleased.

* * *

It costs a lot of money to place foremen, superintendents and managers over forces of workers. This heavy overhead cost, however, has been found necessary because workmen, as a rule, need bossing.

In the same way, the American public has found that our business men need to be carefully supervised. That is the reason why we today have such an inordinate number of courts, commissions, investigators and other regulatory bodies. This costly government machinery is the natural effect of abuses created by the business world, or at least, by the black sheep of the business world.

* * *

Hoover will be the man in an emergency of this character some must take the responsibility and leadership and say what is fair. The question is the protection of the public from a loss of fifteen to twenty millions of dollars a week to prevent profiteering.

* * *

Let us have confidence that Hoover will protect us from such profiteering and protect us from such profiteering during some former strikes.

PRODUCE REVIEW

Movement of eggs in producting sections is normal for this season of the year, but the quality is showing the uneven each week, due to weather conditions

To obtain the highest market for eggs, producers should give careful attention to and are urged to follow the suggestions of the U. S. Department of Agriculture, which are.—

Produce infertile eggs by removing the roosters from the flock in the summer time

Provide clean nests and keep eggs clean.

Do not wash eggs.

Gather the eggs twice daily during the summer, to prevent them from being heated by the hen.

Keep them in a cool, dry place, away from flies.

Market them at least twice each week.

The movement of both live hens and broilers is on the increase. The demand for both, however, is good and conditions point to good values being paid, altho as the new crop of broilers, increases, both in quantity and size, the market will seek lower levels.

All indications are that the production of butter in the United States in the next few weeks will be the largest known.

The demand, however, is very good, both for current use and for storage purposes, and the prospects are for favorable market conditions.

PRICES OF WHEAT DOWN 3 CENTS

Execution of Stop Loss Orders Brings Decline

CHICAGO. — Wheat prices averaged slightly lower Saturday during the early dealings. The local element was extremely bearish, the pit element having been on the selling side since the start. Execution of stop loss orders under $1.17 for July was responsible for the sharp break soon after the opening. Support was lacking, except from shorts and the market has been showing a heavy undertone. After starting at unchanged figures to 3-4 lower, with July $1.17 3-4 to 1.18 and September $1.17 1-8 to 1.17 1-4, the market declined rapidly, the July getting under $1.16, the lowest of the week on the present downturn.

Trade in corn was almost entirely of a local character, the market in the main following wheat. After opening at unchanged figures to 1-8 @ 1-4 off, July 61 3-4 to 61 7-8c, the corn market underwent a slight sag all round.

Oats started 1-8c lower with July 38 1-8 and held close to the initial figures.

Provisions were steady.

The wheat close was weak with prices showing a net loss of 1 3-8 to 3 1-8 with July $1.14 7-8 to 1.15 and September $1.15 3-8 to 1.15 1-2.

The corn close was weak, prices showing a net loss of 1-8 to 1 3-8 with July 60 3-4 to 60 7-8.

STOCK AND GRAIN GOSSIP

Correspondents of Logan and Bryan (Courtesy of W. A. Rubsam & Co.)

The stock market displayed a distinctly reactionary trend in Saturday's short session, aside from a few specialties it is thought that the market will exhibit more pronounced tendencies in the future.

Some of the Standard Oil stocks which were strong during forepart of the week were distinctly weak Saturday morning. It would not be surprising if the weakness in these stocks caused some active selling in the inside market.

The so-called California Oil stocks advanced sharply on merger talk affecting one group or another of companies. Merger talk seems to be more influential, indicating the tendency of market prices.

Improvement is expected to continue along special lines, particularly reflecting specific trade betterment developments. Oils are reported in line for higher prices.

Dunn reports 407 failures in the United States this week against 451 last week and 264 last year.

Wheat export estimated at 400,000 to 500,000 bushels; corn, the same.

While the incentive necessary to to promote aggressive bullish tactics in wheat is lacking at the moment, it will be well to give close attention to the progress of the growing crop, as any definite signs of deterioration will undoubtedly be followed by an upward movement of prices.

Hog receipts Saturday were 5,500; cattle, 1,000; sheep, 4,500; left overs 12,700.

NEW YORK—Simultaneous gains and losses in the prominent oil issues caused much confusion of prices during Saturday's brief stock market session. Reactions of 1 to 3 points in California Petroleum, Associated Oil, Pacific Oil, Producers and Refiners and Standard Oils of New Jersey and California were offset by gains of 1 to 3 1-2 points in Royal Dutch, Mexican Petroleum, Marland, Houston, Cosden and Shell Transport. Independent steels were heavy as were also some of the equipments, tobaccos and food specialties. United States Steel, Great Northern Ore, Iron Products, Pacific Mail and International Paper were strong. Dupont again featured the miscellaneous stocks at a six point rise. New York, Chicago and St. Louis and New York Central were moderately heavy, but strength was shown by Wheeling and Lake Erie and Lake Erie and Western issues. The closing was irregular. Sales approximated 800,000 shares.

Oils continued to lead the market to higher levels in early dealings. Mexican Petroleum made an opening gain of 1 5-8 and Royal Dutch advanced 2 1-2 points. Standard Oil of California and Pan-American Petroleum also were strong, but California Petroleum. Friday's sensational feature, forfeited two points. Dupont, another one of Friday's strong specialties, registered a four point gain. United States Steel came within a small fraction of its high record but independent steels were reactionary. Republic and Midvale showed selling pressure Sugars and food specialties were strong with shippings and textiles. Movements in the railway group were confined to junior shares, Lake Erie and Western common and preferred displaying pronounced strength.

ACTUAL BANK STATEMENT

NEW YORK—The actual condition of the clearing house banks and trust companies for the week shows that they hold $26,641,170 in excess of legal requirements. This is an increase of $8,017,730 from last week.

MARSHALL FIELD REVIEW

Marshall Field & Company, in their weekly review of the wholesale dry goods trade, say:

Current wholesale distribution of dry goods was smaller than for the corresponding week of 1921 and the volume of orders from road salesmen also showed a decrease, owing to the fact that the Pre-Inventory Sale was in progress during this week a year ago.

Reports indicate that a large number of merchants are planning to be in Chicago June 5th and 6th, the dates set for the present Pre-Inventory Sale, and a very satisfactory sales volume is anticipated.

Collections were not quite as good as last week, but are about equal to those of the corresponding period of last year.
